Cajo Vega for Wire harness™ is a turn-key solution for high class marking of wire harnesses. It includes a dedicated jig for marking thin and ultra-thin wires. The marking solution can be integrated as a part of the production line or used as a separate working station. Cajo Vega for Wire harness™ is capable of permanently marking almost all wire harness materials.

The easy-to-use user interface has been specially designed for marking of wire harnesses and it allows flexible customization of marking content, such as logos, serial numbers, barcodes, QR codes, data matrices and other product information. Cajo Vega for Wire harness™ is one of the longest-lasting marking devices on the market.
